PROFILE

I'm Fajrina Yusri, a foresty graduate from IPB University. During college, I was interested in graphic design and web programming. To explore these skills, I participated in several online and offline trainings. I am currently attending web programming training organized by Yayasan Plan International Indonesia.

EXPERIENCE

Bootcamp Tech Muda II, Yayasan Plan International Indonesia – Web Programming (Des 2023 – present)
- Learning is conducted for 360 hours.
- Able to create websites using HTML, CSS, JavaScript, bootstrap, and WordPress.
- Able to create a database using PHP.
- Able to use Figma and Framer applications to design UI/UX.

RevoU Fundamental Course – Software Engineering (Mar 2024)
- Learning is conducted for 2 weeks.
- Able to apply HTML, CSS, and Javascript in website development.
- Make a mini project of BMI calculator as final project.

Graphic Design and Digital Printing, BLK Kota Tangerang (Feb – Mar 2021)
- 210 hours of learning duration
- Able to use CorelDraw and Photoshop applications to create poster designs, banners, mockups, etc.
- Able to operate digital printing tools to print shirts, mugs, and pins.
- At the end of the training, I took a competency exam to get my BNSP certificate.
